

ECOIL - Used Oils Storage Tanks

Description and characteristics:

- Double wall tank specially designed and engineered to store used oil in optimal safety and hygiene conditions.
- Constructed of High-Density Polyethylene (HDPE), the tanks have a double wall, level indicator, leak display and drainage rack for filters and other contaminated equipment.
- Totally sealed and low in weight, the tanks offer high mechanical resistance, are highly resistant to chemicals, and corrosion-proof.

ECOIL 300,600 and 1200

equipped with double walls, level indicator, drainage rack and leak viewer.

Ref.	Volume (L)	Diameter (mm)	Length (mm)	Height (mm)	Lid (mm)
ECOIL300	300	800	-	1140	440 x 310
ECOIL600	600	1030	-	1340	440 x 310
ECOIL1200	1200	1400	-	1510	440 x 310
